

OnCollab A10

A Compact Workspace Collaboration Solution

A10 is a small device that will upgrade your workspace with unparalleled connectivity. A10 will allow you to experience seamless collaboration with OnCollab features such as the CollabSpot system and diverse connectivity features such as real-time screen sharing with AVANote.

The device is both feature-rich yet easy to use, prioritizing accessibility features such as One Click Casting (OCC) and Omnicast. No matter the size of your workspace or classroom, A10 will seamlessly integrate and empower your collaborations from the comfort of your own personal devices.

A10 also comes in the Lite version, where it has all the same functionality of the A10, except for the USB Camera over IP and USB Microphone over IP. The perfect solution for those looking for a simple, yet powerful collaboration solution.
